# Dream To Fly

*Have you ever dreamt you were flying?*

Produced by the  
**Copernicus Science Centre  
 Heavens of Copernicus Planetarium**

Since the beginning of history, people have dreamed of flying. Tales of mythical dragon flights thrilled ancient dreamers. Storytellers wove airy fantasies of magic carpet rides. Leonardo da Vinci stoked the dreams of flight with his fantastic drawings and through his eyes, we learned to look to nature for the secrets of flight.

When Montgolfier took to the skies in a balloon, the dream finally became reality. The Wright Brothers swept us up to the sky, and started a revolution.

It wasn't long before our immense and challenging dreams of soaring through the air became an everyday occurrence. **Dream To Fly** is a poetic and touching story of aviation's development through the ages. It presents the significant milestones on our route to conquering the skies — both in terms of technological breakthroughs, as well as our perceptions of flying itself.

The production team at the Heavens of Copernicus Planetarium use gorgeous full-dome visuals, a full orchestral score composed specifically for the show, and an elegant, tinge-of-the-exotic narration by one of Poland's leading stage and screen actors, Danuta Stenka, to make **Dream To Fly** an emotional, exceptional and unforgettable experience. The attention to detail can be seen in the show's climatic WWII aerial battle; aviation enthusiasts will thrill to see how carefully the HOC animators modeled the actual aircraft flown in the dogfights.

Open your audience's hearts and minds to new ideas about flight, and learn how generations of dreamers pursued the ancient impulse that has taken us from the ground to the stars.

Take your audiences on an incredible journey to live the dream — the **Dream To Fly!**

Running time: **35, 26 minutes**  
 Suitable for: **General public**  
 Information about: **History of flight**  
 Year of production: **2013**

**Available in 2D or 3D Stereo**
