Magic Globe

A Story of the Seasons

Produced by CREATIVE PLANET

On vacation at her grandpa's, a little girl Mia discovers a mysterious piece of astronomical machinery in the attic. Mia's eccentric uncle Edek tricks the girl into using the tool's secret powers to change the world's seasons. She quickly realizes the consequences of that action, but Edek doesn't want to let his plan go.

Magic Globe's engaging story has a clear educational structure, designed to interest and challenge children from 5 to 12 years. Children can recap their prior knowledge and/or learn new concepts while the story carries everyone forward together, making it perfect for mixed-ability audiences.
