

A total solar eclipse is shown in the upper left, with the Sun's corona glowing around the dark Moon. To the right, the Moon is shown in its reddish hue. The background is a starry space.

CHRONICLE OF A JOURNEY TO EARTH

LOCH NESS PRODUCTIONS

Chronicle of a Journey to Earth

*Travel to a unique planet —
to call your home!*

Imagine that you are a traveler from the depths of interstellar space. As you approach our solar system, what will you find? Long before you reach the Sun, you traverse the Oort cloud, the deep freeze at the outermost reaches. You pass by the gas giants and their families of moons and rings. Finally, you reach the inner solar system, and the rocky worlds of Mars, Earth, Venus and Mercury.

If you were looking for a place to call home, which world would YOU choose? From the cold frontier inhabited by the dwarf planets of the outer solar system to the warmth of the Sun, any self-respecting traveler would ultimately be drawn to Earth, to explore and understand how this planet alone has come to be an ideal haven for life.

Discover seasonal climate changes, and witness wondrous visions from the surface of this unique world — Moon phases and eclipses. Come along for the ride, and see our neighborhood in space from a new perspective.

Chronicle of a Journey to Earth combines the videography and animation created by Albedo FullDome of Barcelona (who originally produced the show in 2009) with the soundtrack expertise of Loch Ness Productions.

Our version features a revised script by Carolyn Collins Petersen, who also narrates the show. The soundtrack was produced by Mark C. Petersen, and features original music from the vast re-sources of the popular MUSIC BACK-PACK Library.

Running time: **20:21**
Suitable for: **General public**
Information about: **Astronomy, Solar System**
Year of production: **2010**

PRICES INCLUDE encoding/formatting and slicing for most fulldome systems. Contact us for details.
