Big Bird's Adventure

One World, One Sky: Big Bird's Adventure

Big Bird, Elmo and their friend from China, Hu Hu Zhu, take viewers on a journey of discovery!

One World, One Sky is a production of Adler Planetarium, Sesame Workshop, Beijing Planetarium, and Liberty Science Center and was produced with major support from the National Science Foundation.

One World, One Sky is distributed by Loch Ness Productions.

One World, One Sky is a 27-minute full-dome planetarium show that follows *Sesame Street*'s Big Bird and Elmo as they explore the night sky with Hu Hu Zhu, a Muppet from *Zhima Jie*, the Chinese co-production of *Sesame Street*.

Together, they take an imaginary trip from Sesame Street

to the moon, where they discover how different it is from Earth. Elmo and Hu Hu Zhu teach each other how to say simple words such as "star" and "moon" in their native languages.

When Elmo and Hu Hu Zhu "travel" to the moon, they discover some basic but surprising scientific facts. For example, they can't fly a kite there because there is no wind. The fuzzy friends then excitedly realize that children like to fly kites in both China and the United States! At the end of the show, Big Bird, Elmo, and Hu Hu Zhu pick a friendship star to remind them that no matter how far apart they might be, they can always look into the night sky and cherish their shared memories.

One World, One Sky is a brilliant spectacle of light and color as the furry friends watch the stars twinkle over Sesame Street. Children attending the show can interact as they watch, drawing constellations and counting the time it takes the sun to set. The show aims to nurture a child's natural sense of wonder about the night sky

while forging cross-cultural connections, and bridging kids across nations through a common bond in learning about the sky together.
