Chronicle of a Journey to Earth

*Travel to a unique planet —
to call your home!*

Produced by:
Antares FullDome Productions
and
Loch Ness Productions

Imagine that you are a traveler from the depths of interstellar space. As you approach our solar system, what will you find? Long before you reach the Sun, you traverse the Oort cloud, the deep freeze at the outermost reaches.

You pass by the gas giants and their families of moons and rings. Finally, you reach the inner solar system, and the rocky worlds of Mars, Earth, Venus and Mercury.

If you were looking for a place to call home, which world would YOU choose?

From the cold frontier inhabited by the dwarf planets of the outer solar system to the warmth of the Sun, any self-respecting traveler would ultimately be drawn to Earth, to explore and understand how this planet alone has come to be an ideal haven for life.

Discover seasonal climate changes, and witness wondrous visions from the surface of this unique world — Moon phases and eclipses. Come along for the ride, and see our neighborhood in space from a new perspective.

Chronicle of a Journey to Earth combines the videography and animation created by Antares FullDome Productions of Barcelona (who originally produced the show in Spanish) with the soundtrack expertise of Loch Ness Productions.

This newly updated 2010 version features a revised script by Carolyn Collins Petersen, who also narrates the show. The soundtrack was produced by Mark C. Petersen, and features original music from the vast resources of the popular MUSIC BACK-PACK Library.

Running time: **20:21**
Suitable for: **General public**
Information about: **Astronomy, Solar System**
Year of production: **2008, LNP version 2010**

PRICES INCLUDE encoding/formatting and slicing for most fulldome systems. Contact us for details.
