Larry Cat In Space

Take off on a lunar adventure with a curious stowaway cat!

Larry Cat In Space is a playful, imaginative cartoon presentation about an inquisitive cat who takes a trip to the Moon.

Through Larry's eyes, we observe his human family — a group of very enthusiastic skywatchers who spend much of their leisure time at the eyepiece of their backyard telescope.

One of his family members is Diana, who goes to work on the Moon as a lunar geologist. She sadly leaves Larry behind.

When her parents pack a trunk of clothes to send up to her, Larry figures out a way to smuggle himself inside.

The trunk and Larry are loaded onto the Space Plane, which takes him to space station Freedom. From there, he is transferred to the Lunar Shuttle. During weightlessness, the trunk opens. Larry floats out into the cabin, and looks out the window.

When Larry gets to the Moon, he leaps to greet Diana, but sails over her head, since he only weighs two pounds in lunar gravity. Then he meets the rest of Imbrium Village's inhabitants, including the evil Commander Stone, who orders Diana to return Larry to Earth.

The Moon base crew petitions to keep Larry, and the Commander relents. He even makes Larry a cat space suit.

When Larry ventures out to explore the lunar surface, he spots the Earth, looking a lot like the Moon did from the porch at home.

While *Larry Cat In Space* is primarily targeted at primary grade students, everyone enjoys a fun-filled cartoon adventure.

Adults and children alike will be charmed by Larry's adventurous nature, and they'll learn something about the Moon, too!
