

To SPACE & BACK

**Space Exploration
Shaping Your Life**

To Space & Back

Space exploration shaping your life!

Space exploration has a major effect on our lives — helping us discover a universe of breathtaking scale and beauty, and influencing the way we live.

The international award-winning *To Space & Back* takes audiences on an incredible journey from the far reaches of our known universe to our own planet.

It is an extraordinary story of human ingenuity and incredible engineering, describing how the technology that transports us through space is paving the way for the devices and apps we use every day.

Space — our greatest adventure, is shaping our daily lives. It's shrinking the world into a gadget that fits into the palm of your hand — but it doesn't stop there.

This is the amazing story of how space exploration is now part of our everyday life. What's happening above is coming back down to Earth!

The show explores the way each of us has been changed by the discoveries made by the international space program. From the devices we use every day to the tools that are breaking new ground in medicine and engineering, we can thank space exploration for making our modern lives possible.

Whether screening for general audiences or school groups, viewers love the graphics and draw connections from space to everyday life.

Discover how space exploration is shaping your world... discover *To Space & Back*.

Running time: 25 minutes Suitable for: **General Public** Information about: **Space exploration and research, technology** Year of production: **2013**

<i>To Space & Back</i>			
MOVIE SIZE	For systems projecting circles that are:	20-YEAR LICENSE	PRODUCT CODE
